Mid-Year Newsletter

A T(r)oothfully Exciting Update!

Hello and welcome to our mid-year newsletter! Yes, we're already halfway through the year—don't ask us how that happened either, but even more surprising is the actual nice weather we have been having. Long may it continue – please don't let this curse it!!!

Please do read below for the updates in and around the practice, or for the cure for insomnia. It's a win-win!

New Team Members

Following the departure of Chris (the timing of this seemed to happen at the same time as the love island auditions, could he possibly get the call this year?!), and Gabby at Christmas, we've had some lovely new arrivals join the team.

Auto-Booking is Here Set It & Forget It!

Hate booking appointments? Good news: you don't have to anymore. We've launched a new system that automatically books your routine check-ups and hygiene visits at a time that suits you and with your preferred dental team. No more frantic last-minute calls. No more post-it notes on the fridge. You'll still get reminders, and if the time doesn't work, we'll be happy to reschedule.

First up: Jon Slater

Jon is our brilliant new dentist, bringing with him over 15 years of experience, a passion for restorative and aesthetic dentistry, and the calm energy of someone who has completed not one, but two year-long restorative courses (plus a diploma—because why stop there?). Jon is with us Tuesdays and Wednesdays, bringing his wealth of experience to the practice.

And say “bonjour” to Neelam!

She's not French (we checked), but she is our wonderful new Dental Therapist. Neelam's superpowers include expert teeth cleaning, small fillings, and treating children with the patience of a saint and the precision of a Jedi. If your dentist recommends you or your child see her, rest assured—you're in excellent hands.

Airflow Has Landed: The Hygiene Spa Experience Is Here

We're absolutely thrilled to announce that from 1st July, your hygiene appointments just got a serious upgrade.

Introducing: EMS Airflow®.

Airflow is considered the gold standard for hygiene treatments so we are thrilled to be able to giving it to all our patients. Airflow, also known as AirFlow Therapy, is a dental cleaning procedure that uses a combination of air, warm water and a fine powder to remove plaque, stains and tartar from teeth. It is a very advanced, effective and comfortable method of maintaining oral hygiene and preventing dental issues and is widely recommended by dental professionals for its thorough and gentle approach to dental cleaning.

For those of you that like slightly more technical information - WHAT IS EMS AIRFLOW®? EMS AIRFLOW® is a state-of-the-art guided biofilm therapy (GBT) solution designed to enhance dental hygiene and periodontal care by effectively removing biofilm, stains, and young calculus. “EMS” stands for Electro Medical Systems.

Offering EMS Airflow® is scientifically proven to significantly improve patient outcomes, enhance comfort, and optimise the efficiency of dental cleanings.

EMS Airflow appointments will be £70 which is still very reasonable if you compare the prices of local practices, many of whom don't have EMS airflow and are charging £70 to £95 for a 20-30 minute appointment. I am sure when you try it you will realise what amazing value for money that is. If you would like any further information, please don't hesitate to contact us or check out the information on our website.

Dental Plans – Now with More Perks (and Less Math)

We've waved goodbye to our old in-house plan and have transferred all in-house plan patients to Denplan Essentials care. If you haven't received info about this change yet, here's the scoop:

- £15/month: 2 exams + 2 hygiene appointments
- £23/month: 2 exams + 4 hygiene appointments

Extra perks:

- 10% discount on fillings and extractions (exclusions apply—implants and root canals are still the divas of dentistry)
- 60p/month optional insurance for accidents/trauma
- Denplan Advantage: discounts on scans, eye care & physiotherapy (because your teeth aren't the only stars of the show)

Want to sign up? Use the link or QR code.

Want to switch from 2:2 to 2:4? Just say the word, and we'll sort it.

Finance Options

Because Smiles Shouldn't Break the Bank

Need treatment but don't want to pay all at once? We've got two great options:

1. **Tabeo Finance** – Quick application, low interest, and the ability to start your treatment sooner.
2. **In-House Payment Plans** – Interest-free (hooray!), but we ask for a 50% deposit and full payment by the end of treatment.

If you're not sure which suits you best, give us a call and we'll walk you through it.

Practice Refurb Incoming – Please Pardon Our Dust!

Exciting news: we're giving the practice a glow-up! (Not quite an episode of Grand Designs, but close.) We're just waiting on a date from the builders, but expect some changes in the coming months. There may be a little disruption, so we ask for your patience while we make the place even more fabulous for you.

Fun fact: Nik has already banned pink walls, so you're safe from bubble gum overload.

Thanks for sticking with us through the updates—we genuinely love having you as part of the practice, and we're always looking for ways to make your visits better, brighter, and a little more fun.

Keep brushing, keep smiling, and we'll see you soon!

Warm wishes (and minty fresh breath),
